

Intermediate Esri Technical Consultant

Job Advertisement February 2019

Geographic Business Solutions Ltd (GBS) is seeking an Esri Technical Consultant to join its existing team of GIS professionals who are based in Auckland (Mt Wellington).

GBS (www.gbs.kiwi) is a GIS solutions company that offers a full range of GIS services and solutions to our NZ and international clients. From on-site consultancy, data management and analysis to system and solution design, development, implementation and support, we collaborate closely with our clients to deliver innovative, world-class solutions that meet their needs. The foundation of this is an expert understanding of the the Esri products and platform (we work exclusively with these) and of our clients' businesses and goals. Our work is technically challenging and often leading edge, across industries like local / central government, agriculture, forestry, utilities and commercial.

The role of Intermediate Esri Technical Consultant is an exciting and rewarding opportunity to work directly with clients, providing technical advice, business or data analysis support, and designing and delivering out-of-the-box or tailored Esri solutions. You would also work closely with the rest of the GBS team on new (and existing) projects and applications, and opportunities.

What would be great is if you had a recognised tertiary qualification directly relevant to the position. Given that we are solely about Esri solutions, Esri platform experience is also highly desirable.

Key skills you have:

- Esri Platform experience
 - Esri Server/Desktop tools/Web including ArcGIS Online and Portal for ArcGIS
 - Esri applications like Collector, Survey 123, Operations Dashboard, Insights, also Web AppBuilder.
- You can understand business needs, interpret ideas and present solutions
- You understand industry standard best practices in GIS business analysis and design with a view to developing these skills into the future
- Ability to engage with our clients and GBS staff at multiple levels
- Effective time management, planning and organisational skills
- Excellent written and verbal English communication skills

- Microsoft Office
- Project Management experience

We're looking for an authentic, enthusiastic and motivated individual who can work equally well independently or as part of a team. You're creative, have lots of ideas, are able think on your feet, enjoy pressure, and always have a smile. If you like challenges, have high professional standards that are focused towards quality and service, have a sense of humour and can work with our clients, then we'd love to meet you.

You'll spend time with innovative problem solvers with independent, free-thinking approaches. We enjoy our work and have fun with it. We are a small to medium-sized company that is busy, agile and flexible, with a growing customer base and multi-faceted projects and scale. We are one of two Esri Gold Business Partners in the Asia Pacific Region.

You'll get time during work for R&D projects and professional development. We try to have fun in our working environment, can offer flexible working hours, great salaries for the right people and loads of other perks. We'd prefer that you were co-located with our team in Mt, Wellington in Auckland however, for the right person, it may be possible for you to work from another part of New Zealand.

GBS will only consider applicants who are currently eligible to work in New Zealand.

Please send your covering letter and CV to employment@gbs.kiwi
